*Report / Action  
Required*

1. There were apologies for absence received from Cllr Malcolm Roper and PCSO Ian Phipps.
2. There were no declaration of Members Interests.
3. Public speaking
  - PCC Hardyal Dhindsa - The PCC talked through his presentation. The presentation is available on the Parish Council website. He is the second PCC with the first being Alan Charles. He aims to meet with every Parish and Town Council (383) in Derbyshire during his 4 years. Neighbourhood Policing is at the heart of his plan although what is neighbourhood policing is constantly changing. His role is to hold the Chief Constable to account, set the force budget and council tax precept, talking to the communities and commissioning services to deliver community safety services. He also sets and updates the Police and Crime Plan. 1.99% increase on council tax this year and the next few years to maintain the police force this is alongside savings being made. Commissions victim support services funded through fines levied at court to the perpetrator. The Police and Crime Plan was launched in Matlock in August 2016. Matlock is the capital of Derbyshire and sits in the middle between the rural area and Derby. It was unanimously supported. It runs for 5 years which allows his successor a year to understand the area and the plan before needing to publish a new one. 7 strategic objectives – 3 from the previous PCC and 4 new ones:
    - Keeping communities safe from crime and supporting victims
    - Provide strong and effective partnership working – policing needs everybody working together. The PCC oversees this to ensure services aren't duplicated and are joined up.
    - Tackle the impact of drugs and alcohol on communities – 1/6 of all crime is linked to alcohol
    - Supporting those with mental health who come into contact with the Criminal Justice System – Whether victims or involved with crime they need support or help. Officers sitting in A&E 'babysitting' someone with a mental health issue is not the best use of resources. Better partnership working can address this.
    - Working with young people – Most young people grow out of it however some don't and they cause a huge problem for their communities and the services. Looking at working with the youth service and the probation service to help prevent youngsters getting in to crime and, if they do, supporting them to get out of it.
    - Develop the policing family to be more representative of the diverse communities it serves – The public are the police and the police are the public. There will never be enough police officers to deal with crime. The majority of people abide by the laws but a minority don't and building relationships with the local communities is essential in tackling the minority. There is no police force in the country reflects the diversity of their communities. Derbyshire sees this as a priority. The PCC doesn't employ the police officers just the Chief Constable so working with him to address this.
    - Maximise the opportunities from developments in technology – less and less resources means need other ways to be as effective as possible. IT is key in this. Police Officers used to have to go in to the police station to log on to a computer to be briefed and end their shift by uploading their day. By the end

Chairman's Signature ..... Date.....

of this year all police officers will have a mobile office product to allow them to be briefed as soon as their shift starts and be able to fill in incident reports as they interview people.

The major crimes the police deal with very efficiently. However, the issues the public are affected by are more low level issues that are not just a policing matter. The PCC will facilitate bringing partners around the table to see what can be approved. There are more powers given to PCC in January 2017 this included legislation to put business cases to take over the fire and rescue in their area and to have more input into police complaints. PCC Dhindsa feels he can help with economy without taking over the fire and rescue service thought better partnership working. The police and fire and rescue call centres are now co-located. Derbyshire Police has a very good complaints records and resolving issues as early as possible and is a national example. Derbyshire Alert stopped being funded by the police. Following a review the PCC decided to fund it as the value to communities is important. 880,000 voters in Derbyshire and wants to try and reach as many of them as possible. Derbyshire Alert now includes Farm Watch and Fraud Watch.

Listening to you – on the PCC website there are different ways to get your views heard [www.derbyshire-pcc.gov.uk/ListeningToYou](http://www.derbyshire-pcc.gov.uk/ListeningToYou)

#383 is his initiative to meet all the communities in Derbyshire.

The Government statement is crime has reduced. This is true for the traditional crimes that are reported (top of the iceberg). However, there are many new crimes (iceberg below the sea). There needs to be as many police officers online as being seen on the street as this is where new crime is being targeted.

Question session –

- David Upton – Prepared a letter to the PCC which he read out. It covered his concerns over Police morale, Police patch sizes and funding. The PCC responded with understanding and that he is urging the previous and current Home Secretaries to not cut funding.
- What is the response time on a 999 call? 8 to 12 seconds to respond to the call and the vehicle attending depends on the location but quicker. The non 999 calls are more of an issue. All Police Officers and vehicles have trackers to enable the call hub to allocate calls to the closest officers. PCC will see if he can obtain the data for speed of responses of 999 calls.
- Speedwatch – Concern over trouble getting training and finding the gun. Public meeting to hold the Police Chief Constable to account on Monday at 2pm and this is on the agenda. PC Hancock can assist in this.
- Bit disappointed with where this presentation was pitched. Policing has had to change and last 2 slides show the reason why. The 7 objectives don't seem to link to these police changes. What is the impact and analysis of this? Without this how do you know where the funding should be? E.g. in historic sexual exploitation cases or current cybercrime. The objectives do but needs more detailed explanation.
- Road Safety – A6 is busy and the events at Chatsworth have an impact. The County Council won't support speed cameras. What can be done? The RHS and Chatsworth had a traffic management company in to manage the traffic. This was nothing to do with the Police. Events are good for Derbyshire but something does need to be done and the PCC is happy to help where he can.
- Cllr Jason Atkin – nothing to report, at the moment, due to a new administration. He is keen to address traffic issues.
- Cllr Kath Potter –
  - Planning application regarding the bungalow application to go up a storey. This was approved and Cllr Potter was shocked as one very similar in the Hope Valley was refused.
- Resident emails – The Clerk has received a couple of emails since the agenda came out:
  - Benches – Mr Roberts sanded down and painted a number of the older benches in the village. He has emailed suggesting that some of this needs revisiting. It was agreed to look at this after the Clerk has done the bench inspection later this month.
  - Jackdaw problems – Clerk has advised the resident to contact DDDC. He has done this today and has been told there is nothing which can be done.

Enforcement:

- Bar Lodge - Planning Enforcement has visited and a retrospective planning application needs to be submitted

8. Suggestions from residents:

- Land at the bottom of Eaton Hill - Clerk has written to the owner
- Speedwatch - This was discussed under public speaking.

9. Inspections

➤ Issues from latest inspections?

- Playground - Cllr McHattie will undertake next month's inspection.
  - ROSPA report. The points were noted and agreed to monitor:
    - Fencing - There is decay to timber components which may affect structural integrity. Due to the increased problem of timber rot, especially in posts in contact with the ground, we do not recommend replacing rotten supports with timber posts which are directly set in the ground - Low risk
    - Entrance - two pedestrian gates to reduce the risk of intimidation and bullying - Low risk - Monitor
    - Equipment - All timber has strimmer damage on uprights - Medium risk - Look to replace
    - Slide - Slide end run-out is only 1.5 m to the only entrance to the play area - Low risk - consider moving gate location
- Burial Ground - Cllr Roper will undertake next month's
  - Sunken graves - Clerk has asked William Brindley to quote to refill
